

More space.  
More light.  
**More life.**

Sliding Door Systems  
Designed For Living

 **CARLISLE BRASS**

# Built for your home.

**We are a UK based designer, manufacturer and distributor of high-quality architectural ironmongery. We aim to be the number one choice for our customers. We offer a complete package from specification, scheduling and supply of a huge range of quality ironmongery.**

Our sliding door systems are made from high-quality stainless steel and come in two styles, plain glass or wood with a variety of finishes available.

German designed and engineered, this unique product range is designed to the highest standards, is reliable, and built with performance in mind, ensuring that you enjoy this relaxing and stylish way of living for many years to come.

Bring light  
into your life.

**Introducing German designed and engineered sliding door systems. Non-drill glass and wooden sliding doors that free up valuable space in your home and flood your house with natural light.**

Imagine your home filled with light and space to transform the way you live and work, allowing better use of space and creating a Zen-like calmness throughout your home.

Fall in love with your home and create separate living spaces with light, warmth and energy. Open plan living is part of modern life, but sometimes you need a space to reflect or a little time to think that's separate from the everyday hustle and bustle. Now you can have the best of both worlds.

Glide your sliding door across and create your own space. Unlike traditional solid doors and walls, our system offers you a unique and flexible way to transform your home.

< Planeo 120 Comfort Sliding Door System

**Lucia Grip Pull Handle**

Strict geometric clarity is combined with roundings pleasant to the touch.

Fall in love  
with your  
home.

**Our sliding door systems unlock space in your home in ways you might never have imagined.**

Small or dark areas of your home can become light and spacious. Difficult corners are transformed to give you more floor space.

Our sliding doors integrate style and function to glide gently and silently straight along the surface of the wall, making all floor areas available for you to use.

No more wasted space or compromise on living. You can fall in love with your home all over again.

**Rechteck Rectangular  
Flush Pull Handle**

Pull handle comes with Sensa technology; bonding without the need for drilling.

### **Planeo Air 120 Comfort**

A delicate frame profile only 6mm in width surrounds the glass surface of the sliding door system Planeo Air.

**Our sliding door systems are easy to fit and can instantly transform your living space making it appear larger, lighter and more luxurious.**

A smaller living room can start to feel more spacious with the addition of a stylish sliding door. More light begins to flood into the room and opens up the space and allows you to live the way you want.

Furniture can fill the space once claimed by a traditional solid door and allow you to use more of the space in your room and transform the way you live.

Please note: The Planeo Air 120 Comfort system is a special item. Please contact us for further details.

Your space  
to relax.

**The modern home needs to be adaptable to respond to the way people live and work. Our sliding doors can help you create unique and useable spaces that work for the whole family.**

Open space living can provide room to spread out but can also leave rooms difficult to use. A dining space can be transformed into a home office or a space to concentrate on homework. A living room can be split to create a playroom and a quiet space for Mum and Dad to relax.

Plain or decorative glass doors allow light to flow through and let you see the whole family whilst enjoying your own space. Solid design sliding doors give you more privacy whilst maintaining a high quality finish.

Our sliding door systems are easy to install and can be fitted to virtually any home in less than half a day with no need for any complicated building work.

Planeo 60 Pro Comfort Sliding Door System >

Bring the  
outside in.

**Our sliding glass doors allow you to open up your entire room and create a continuous flow through to your outside space.**

Make the most of your home and create spaces that allow you to gaze out onto your garden. We're all searching for that illusive indoor/outdoor lifestyle, where our homes melt seamlessly into gorgeous gardens.

Sliding doors have the ability to transform your home. Whether they're leading off a kitchen-diner, living room, bathroom or even a bedroom, they make spaces feel larger.

These elegant sliding doors transform your home so you can use your space your way and expand your living space by bringing the outside in.

Please note: All door handle furniture is specified for internal use only.

**Stainless Steel Sliding Door System R8**

The glass pane is held into the running cart by dual glass clamps.

**Quattro Square Flush Pull Handle**

Pull handle comes with Sensa technology; bonding without the need for drilling.

### **Circle Flush Pull Handle**

The lightweight construction makes this technical masterpiece possible.

### **Peace of mind**

We pride ourselves in the quality and finish of our doors and provide a 10 year guarantee subject to terms & conditions. This provides you with peace of mind that our products will continue to deliver for their entire lifespan. Please contact us for full guarantee terms and conditions.

### **Customer service**

At Carlisle Brass, customer service is paramount. Our customer service and technical team is available to help with your questions.

Whether you need technical advice on product choice and finish or need to know more about the benefits of sliding doors, our team is on hand to help with your enquiry.
