

Safety Lever on Inner Plate

Product Images

Description

Safety lever on a Steel Inner Backplate. A multi function handle template which serves as a base for alternative covers making this a very useful and flexible product. Various covers can be fitted over the template thus converting it into a lock, latch or bathroom assembly as required. Lock options consist of; Euro, Oval, and Standard profile in various centres. The covers to be ordered separately. The safety lever is a round bar return to door type and the assembly and optional covers meet BS Standard 8300 for disabled people and BS EN 1906 requirements. Comes with a 25 year mechanical warranty and is Fire rated. Suitable for fitment in all domestic, commercial and industrial environments. Part of the Steelworx range in grade 316 Stainless Steel.
