

Safety Lever on Inner Backplate

Product Images

Description

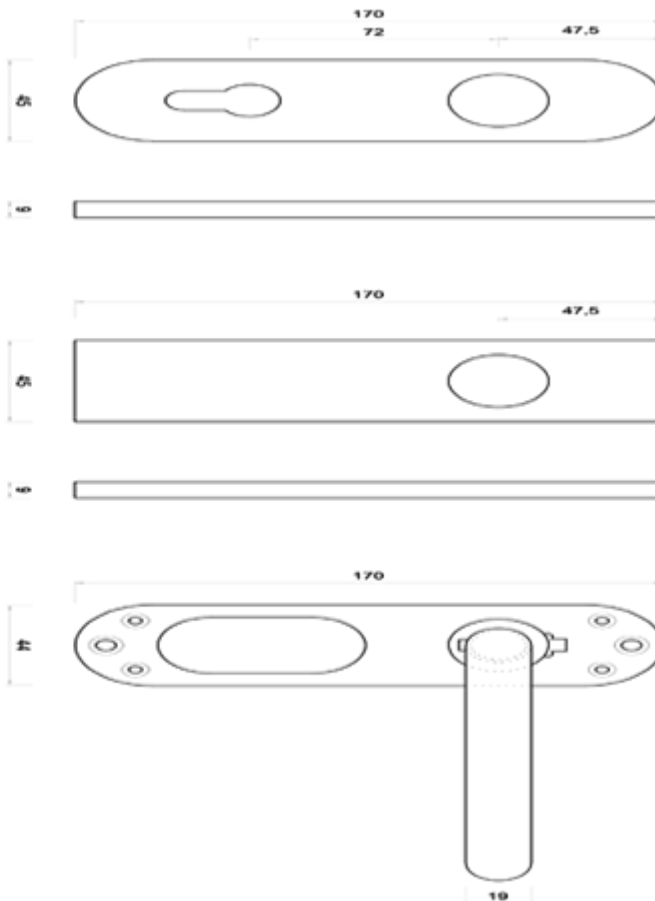

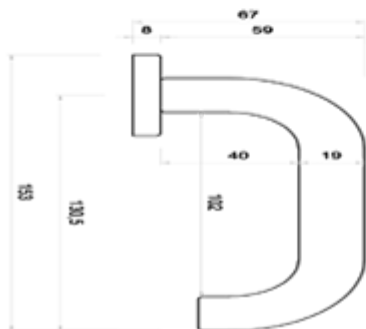

Safety lever on Inner Backplate. A multi function handle template which serves as a base for alternative covers making this a very useful and flexible

product. Various covers can be fitted over the template thus converting it into a lock, latch or bathroom assembly as required. Lock options consist of; Euro, Oval, and Standard profile in various centres. The covers to be ordered separately. The safety lever is a round bar return to door type and the assembly and optional covers come with a 10 year mechanical warranty and are Fire door rated. Suitable for domestic and commercial environments. Part of the Steelworx range in grade 304 Stainless Steel.
