

Small Escutcheon

Product Images

Description

Standard Keyhole Profile. A round uncovered heavier keyhole escutcheon with a classical period appearance. A prominent rounded ridge encompassing the keyhole lends a distinctive style to this escutcheon and elevates it from the ordinary flat plate versions. As long as the recommended cleaning process is followed, the stainless brass PVD long-life finish offers a 25 year finish guarantee, which renders the surface impervious to damage in normal use including oxidation and abrasion. So your product will stay as good as new, even in coastal areas.
