

## Hand Forged Beeswax Shepherds Crook Cranked Bolt

### Product Images

---

### Description

---

A cranked style door bolt individually hand forged using traditional blacksmith methods. The upraised formed pull handle is curled in the shape of a shepherds crook giving a positive grip in use. The rustic old fashioned styling is more suitable for period properties. The Beeswax finish is the simple, age-old combination of hand forged fired metal finished with wax. The product will acquire its own unique patina over years of use. Comes with a 10 year mechanical guarantee. Not suitable for external use.
