

Hand Forged Pewter Letter Tidy

Product Images

Description

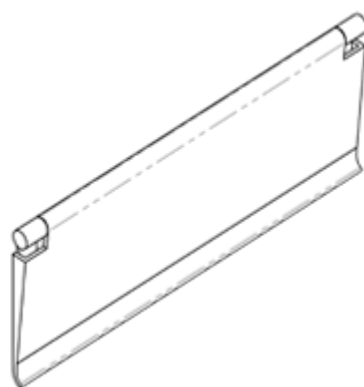

Letter tidy suspended from 2 end brackets. To compliment this tidy a letterplate is also available (PE5524).The rustic old fashioned styling is more suitable for period properties. To create this unique finish, it is electro plated and then stove lacquered making it extremely durable both internally and externally. If a natural metal look with a virtually maintenance free finish is required, then this pewter effect is the logical choice. Comes with a 10 year mechanical guarantee. Please note this is not suitable for coastal locations.
