

## Hand Forged Pewter Lever on Narrow Plate

### Product Images

---

### Description

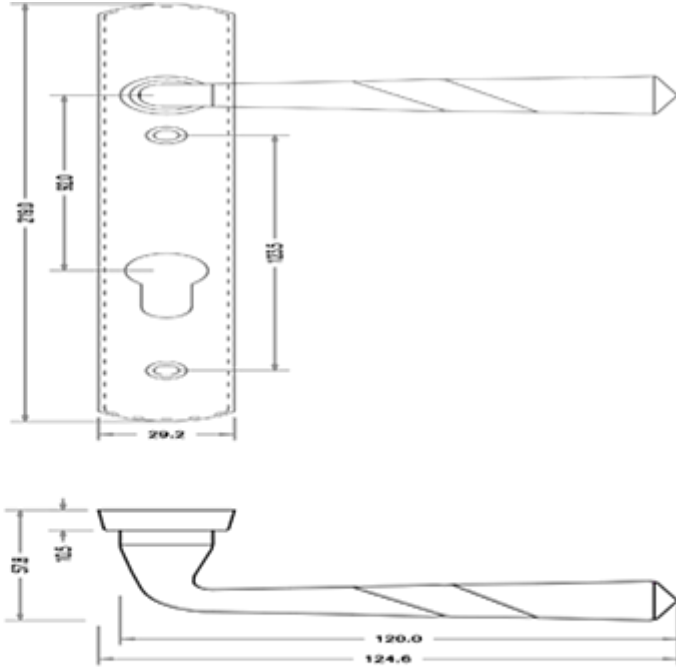

---

Straight lever on narrow backplate. Euro profile 92mm c/c. This straight square bar lever increases in dimension towards its end and comes with a twist,

literally. The twisted middle section feature highlights the handle and provides a positive grip in operation. The rustic old fashioned styling is more suitable for period properties. To create this unique finish, it is electro plated and then stove lacquered making it extremely durable both internally and externally. If a natural metal look with a virtually maintenance free finish is required, then this pewter effect is the logical choice. Comes with a 10 year mechanical guarantee.
