

## Grade 316 3" x 2" x 2mm Ball Bearing Hinge

HIN1322/316

Grade 316 Ball Bearing Hinge (Max Load 40kg). Ball bearing hinges have always been very popular for their smooth operation, durability, long lasting design and ability to carry heavier loads than washered hinges. Suitable for standard internal residential doors a pair of hinges is adequate; however fitting 3 hinges per door has its advantages. It will look aesthetically pleasing and from a practical viewpoint it helps spread the load evenly and will help to overcome twisting or warping.
