

Euro Profile Concealed Fix Escutcheon

AW390-grp

These **Alexander and Wilks** Escutcheons are exquisitely crafted **solid brass** escutcheons in Euro and **standard lock** profiles to be used with Euro and standard UK locks.

They have a **modern circular shape**, with concealed fixings for a clean, **high-end finishing** touch on door fronts. Available in warm and tactile antique brass, classic Italian brass, a fresh and on-trend satin brass which is available with or without a PVD coating, modern stainless dark bronze which is also available with or without a PVD coating, or a fresh and contemporary stainless PVD polished nickel.

Alexander & Wilks represents the very best of **architectural hardware** and ironmongery.
