

Rustic Soft Stop Kit (R80SOFT)

Easy to fit soft close system for Rustic 100

Kit includes:

- Soft close system catches the door and draws it into the open OR closed position for the final 80mm of travel
- To create both a soft close and open function - two kits can be purchased
- Can be installed with new Rustic kits or retrofitted onto existing kits
- Prevents slamming and improves the longevity of the product
- Extremely easy to fit, 80kg capacity

The Rustic Soft Close is an easy to fit accessory for the Rustic 100 sliding door system. The sophisticated system catches the door in the final moments of travel (80mm) and pulls it gently into its final position, preventing slamming and adding to the overall longevity of the product. With a weight capacity of 80kg, Rustic Soft Close has been expertly designed so that it is easily installed onto new or existing installations. The system simply slides over the track fittings at the end of the track, making for an extremely discreet finish.
